

SubliJet 1280 QuickConnect™ System

Announcing the latest innovation in SubliJet digital transfer inks for the Epson 1280, the QuickConnect™ System. The Quick Connect System is a revolutionary ink delivery system designed specifically for the Epson 1280.

QuickConnect for the Epson 1280 offers incredible speed and reliability in a tabloid size printing format, with the added bonus of SubliJet XL inks, ensuring maximum life in outdoor applications, and a 6-color ink system to provide superior clarity.

SubliJet 1280 QuickConnect is for you if:

You are looking for a production oriented, tabloid sized printer with discrete ink cartridges for each color.

You are a SubliJet/Epson 980 user looking to upgrade your sublimation system to true tabloid sized printer for Soft L'ink® t-shirts and award plaques

You are a current SubliJet/Epson 3000 system owner who is looking for improved speed but requires a print area greater than 8.5" x 14".

You are a digital imaging specialist looking for the most reliable sublimation production system available on the market with a moderate cost of entry.

System Cost

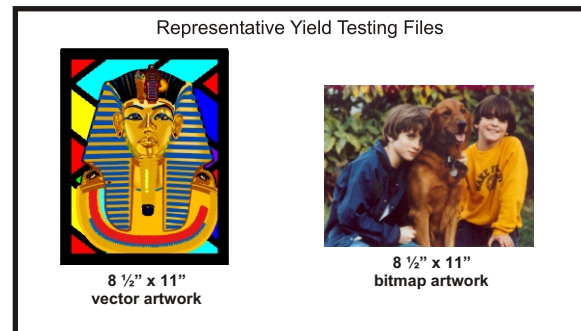

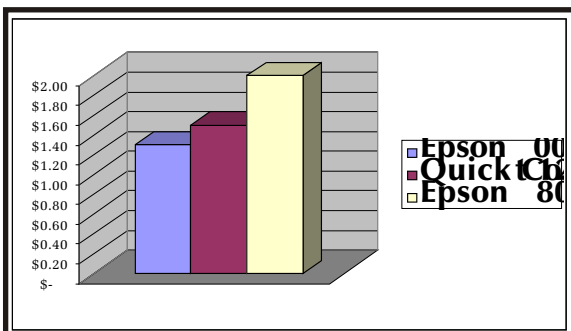

QuickConnect System Cost:	\$279.00
SubliJet XL 1280 Refill Cost:	\$137.25 per color
Yield per Ink Set:	550 full-color pages
Average Price per Page:	\$1.50

Page yield is determined in the following way:

A representative sample of 10 artwork samples is printed many times over. Each artwork sample is based on full-coverage, full-bleed, letter-sized images. The volume of ink used in the process is measured and compared to the total square feet of printed output. The cost of paper, wastage, and cleaning cycles are factored in. The resulting yield data gives a very accurate cost per square foot.

Killer Apps

- ✓ Soft L'ink
- ✓ Name Badges
- ✓ Photo Mugs
- ✓ Signage
- ✓ Mouse Pads
- ✓ Plaques
- ✓ Promo. Prod.
- ✓ And many, many more

 Features	Benefits 
Addition of print head dampers	Prevents disruption in ink distribution.
Sealed system, no bulk containers	No risk of ink contamination.
QuickConnect™ System	No re-priming of lines when ink is replaced means no waste and no mess.
Comprehensive manual and on-line tutorial	Easy set-up and operation; we'll have you printing in minutes.
Elimination of five-color cartridge	No discarding of unused ink equals major cost savings.
SubliJet XL™	New ink formulation ensures longest outdoor life.
PartnerPlus™ Program	This is the only modified sublimation system still covered under Epson's warranty. Your success is guaranteed.
New PowerDriver PRO™ XL 1280	Best color-matching solution available; matching spot colors is effortless.
Small system “footprint”	Speediest desktop system still fits anywhere and transports easily.
